### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The instant invention claims a photonic material comprising a core/shell nanoparticle and a method to make such material. The closest prior art references that relate to the claimed invention are USP 6,180,029 and US 2003/032192 cited in International Search Report. The closest prior art references teach that it is known in the art to make and use nanoparticles having core/shell structure and comprising core luminescent ion and a coating made of polymer. However, the closest prior art does not teach or fairly suggest the instant invention wherein the organic stabilizing layer comprises a functional group material and such functional group binds the luminescent ion .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to leszek b. kiliman whose telephone number is 571-272-1509. The examiner can normally be reached on M-T, 6.30-5.00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, keith hendricks can be reached on 571-272-1401. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
